## **Instructions for the use of the NEWBORN BABY MOVER® from Baby-Mover B.V.**

**IMPORTANT! READ CAREFULLY AND KEEP FOR FUTURE REFERENCE.**

### **WARNING :**

- Your balance may be adversely affected by your movement and that of the child(ren)
- Take care when bending or leaning forward or sideways;
- This carrier is not suitable for use during sporting activities.

### **Use only for its intended purpose:**

The NEWBORN BABY MOVER® is a professional evacuation apron intended for the emergency removal of babies to a place of safety. In case of fire or other emergencies, up to 3 babies with a weight up to a maximum of 5kg (11 lb) per baby can be evacuated from buildings or other structures. The NEWBORN BABY MOVER® is neither intended nor suitable for any other purpose than that described here.

### **Instructions for use:**

#### **A. Preparation :**

- Remove the NEWBORN BABY MOVER® from its packaging and hang it up at a known place that is quickly and easily accessible in case of emergency
- Protect the NEWBORN BABY MOVER® against moisture, heat, strong sunlight and ensure that the pockets remain empty. This will prolong the life of the product.
- Keep the NEWBORN BABY MOVER® out of reach of children and animals
- Baby-Mover B.V. accepts no liability for damage caused by improper use of the NEWBORN BABY MOVER® or use of the NEWBORN BABY MOVER® for any purpose other than that for which it is intended.
- As the NEWBORN BABY MOVER® may be used monthly at evacuation drills, some signs of wear and tear may appear after a few years. Therefore, check regularly that the NEWBORN BABY MOVER® has no defects or excessive wear.
- Report any defect without delay to Baby-Mover B.V. and never try to repair it yourself!
- If possible, practice the scenario described in section B at least once a month

#### **B. If evacuation becomes necessary:**

- The rescuer first places her/his head and arms through the holes in the NEWBORN BABY MOVER®, with the pockets to the front. Place the babies in the carrying pockets as detailed below. Try to evenly distribute the weight over the three pockets.
- Place the baby horizontally with the head on the side of the black mesh in the carrying pocket. Turn the face of the baby to the open woven mesh from the carrying pocket of the NEWBORN BABY MOVER®.
- Close the carrying pocket with the clip fastener. Adjust this clip fastener looser or tighter.
- The NEWBORN BABY MOVER® is made from fire resistant material. Therefore flammable material should as little as possible be allowed either on the NEWBORN BABY MOVER® or in the carrying pockets.
- Pay full attention to the children whilst they are being carried.

- Do not use (hot) drinks or food while carrying children.
